Report on extension activity/outreach activity 'Wildlife Awareness and Conservation Program' at Kittur Rani Channamma Mini Zoo.

Details of the programme
Title: Extension activity/outreach activity 'Wildlife Awareness and Conservation Program
Date of event: 22-07-2025
No. of Participants: 15
Highlights of the Programme: The students of Govindram Seksaria Science Autonomous College, Belagavi, from the Departments of Zoology and Botany, actively participated in a Wildlife Awareness and Conservation Program held on 23rd March 2025 at Kittur Rani Channamma Mini Zoo, Bhutramanahatti, Belagavi, Karnataka. The visit was coordinated under the guidance of R.F.O. Mr. Pavan Kerning and staff in-charge Dr. Goundadkar Basavaraj, with a group of 15 students. The main objective of the program was to educate and sensitize students and the public about the importance of wildlife conservation, biodiversity protection, and sustainable coexistence with nature. Students participated with great enthusiasm, learning about various animal species housed in the zoo and their ecological significance. To draw the attention of the public, a flash mob was organized by the students. Once a crowd gathered, students delivered short talks highlighting the importance of wildlife conservation. The session also included interactive discussions and awareness talks led by zoo officials and conservation experts. Special emphasis was placed on resolving human-wildlife conflicts and recognizing the vital role of youth in conservation efforts. The public also actively engaged in the session and shared their thoughts on the importance of wildlife awareness. This educational visit provided students with a valuable hands-on learning experience and deepened their understanding of the challenges faced by wild animals in both captivity and the wild. It also reinforced their commitment to promoting wildlife protection and sustainable environmental practices.
